

# Mad Max Memecoin Orange Madpaper April 14, 2024

The memecoin to put your madness into.

## MAX, MAD MAX

contract address Zil: follows..... ..

Initial supply: 500'000'000'000

Decimals 18

...

**This is historically the first 100% fair Meme Token Launch in cryptospace**

**Launch procedure MILO, Mambo Initial Launch Offering:**

**Launch date: April 27 - Mai 1, 2024**

- 1.) There will be a Token (Coin) launch on **Mamboswap** at a fixed rate for everyone:  
**1 \$FRANC, Chocolate Stablecoin = 1'000'000 (1 Million) \$MAX, MAD MAX**
2. 10% of the amount of the sold \$MAX will be added and distributed in respective lots to the approved accounts for the airdrop (conditions see below).
3. Maximum the same amount of sold tokens on launch will be taken **for opening a Liquidity Pool on Zilall.com** (AMM DEX with additional limited order possibility. For this the incoming \$Franc for launch will be turned into Zil. This will define the initial liquidity pool size.
4. The rest of the Tokens will be burned. There is **no minting function**, no possibility to mint additional tokens later on. Only burning from the burner account is possible.

Remarks: The token contract implements the Mambo Token Security Standard MTSS

<https://mambo.li/mambo-infos/mtss> **for save burning** (and minting). Some contract codes allow burning by the burner out of any wallet!

### **TokenoMäx:**

45% Launch,

10% Airdrop distributed immediately after launch,

45% Original LP.

Nothing else. Not 1 free coin for the creators. \$Franc management accounts cannot partake in the launch, but can buy later on the Dex, of course. Wait, it would not be Mad Max if not this: Another 3% will be fixed as limit order as high as 1 Trillion X: 1Max = 1 Million Franc (approx. in Zil) for Max.

....

### **Where to buy \$MAX at launch:**

Mamboswap: <https://Mafre-Swap.Mambo.Li>

You must buy \$Franc **on zilall** or zilswap (compare prices) to be able to buy MAX on Mamboswap!

### **Trade after launch:**

**on zilall.com DEX Liquidity Pool** with limited order possibility.

....

# Airdrop of \$MAX, MAD MAX

10 % of the amount of sold token during launch will be added for the airdrop distribution. The airdrop will be made manually immediately after launch (give us up to 4 days to do this).

The total amount for the Airdrop will be divided into as many lots, as are approved to get the airdrop and respectively distributed.

## Conditions to get the airdrop:

1. Condition: You own at least 50'000 \$Mambos. For each complete 50'000 Mambos up to 200'000 cap you get a lot. (max 4 lots per wallet) .

**We will take a snapshot of all Mamboholders some days or hours before launch!**

The wallet must have been active in the last 2 years.

**or for free:**

## MAD MAX Expansion:

**We plan to expand to Tonchain**

In case we expand to TON Open Network, we let it open whether it will be a parallel project or the original coin split (in amount).

**contract address Ton: follows**

## Troubleshooting:

Possible Problems: **Increase allowance error:**

1. Go on [Ide.zilliqa.com](https://ide.zilliqa.com) call the Token address contract.
2. Get the contact address of the Swap (MamboSwap, [zillal.com](https://zillal.com), [zilswap](https://zilswap.com))
3. ON Ide having the Token contract, choose Increase allowance, paste the swap contact in the spender field
4. In the amount field put an huge amount with at least 35 zeros (the decimals are included there, and they can take 18 zeros already).
